AGENDA CAPTION

Approval of Resolution 2026-R-02B authorizing the dedication of 0.027 acres of City owned property located at the intersection of FM 1431 and US Hwy. 281 (Burnet County Property ID 28775) to the Texas Department of Transportation (TxDOT) for a traffic improvement project, and approval of TxDOT right-of-way documents, ROW-N-143 & ROW-N-14, required to facilitate the project and authorize the City Manager to execute all related documents.

BACKGROUND INFORMATION

TxDOT is undertaking a traffic improvement project located at the intersection of Highway 281 and FM 1431 within the City of Marble Falls intended to improve traffic operations, safety, and overall mobility in the project area. As a part of the project, TxDOT requires a portion (0.027 acres) of City owned property for right-of-way and/or related transportation purposes.

The City owns the property necessary for the project, and TxDOT has requested formal City Council authorization to dedicate the required portion of the property and to execute the associated TxDOT documents. The proposed dedication area is shown and described in the attached exhibits.

The proposed resolution authorizes the dedication of the identified portion of City-owned property to TxDOT and finds that the dedication serves a public purpose. Approval of this item will allow TxDOT to proceed with the planned improvements and ensure the City's cooperation with state transportation efforts.

In addition to the resolution, TxDOT requires City execution of two (2) standard right-of-way forms related to the project, ROW-N-143 & ROW-N-14. These forms are administrative in nature and are consistent with the terms of the project and TxDOT requirements.

City staff have reviewed the proposed dedication and documents and find them to be in the best interest of the City.

COUNTY OF BURNET	§	Project limits: AT RM 1431

THIS AGREEMENT is entered between the Contracting Parties, as defined below.

I. Contracting Parties:

Donor:

State: The Texas Department of Transportation (“**State**” or “**TxDOT**”)

II. Background:

Texas Transportation Code §201.206 authorizes the State to accept, from any source, a donation of realty for the purpose of carrying out its functions and duties. Texas Government Code Chapter 575, requires the governing board of a state agency, not later than the 90th day after a donation valued at \$500 or more is accepted, to acknowledge the acceptance of the donation by majority vote at an open meeting and prohibits a state agency from accepting a donation from a person who is a party to a contested case before the agency until the 30th day after the date the decision in the case becomes final. To provide guidance on when a donation may be accepted by the State, the Texas Transportation Commission (Commission) has adopted rules relating to the State acceptance of donations, codified as 43 TAC §§1.500-1.506. Acceptance of a donation of \$500.00 or more must be acknowledged by the Commission not later than the 90th day after the date the Donation is accepted by the State.

The Donor is a property owner desiring to donate property described herein to the State for no benefit or gain to the Donor. The State wishes to accept the donation of property and the Donor must execute this donation agreement.

III. Agreement:

The Donor, being fully informed of its right to receive just compensation for the Property, agrees to donate the property more particularly described on Exhibit “A”, attached hereto and incorporated herein for all purposes (the “**Property**”), to the State. The State certifies that its acceptance of the Property will further the State’s abilities to meet its responsibilities.

The value of the Property as determined by Burnet County Appraisal District is \$14,263.04. The Donor has been informed of its right to conduct or waive an appraisal of the Property by a qualified appraiser.

(_____) Donor’s Initial

- B. The Donor acknowledges that it has been fully informed of Donor’s right to receive just compensation for the Property.
- C. Donor acknowledges that nothing contained in this Agreement shall be a limitation of any type on the divestment of interest by Donor to State.
- D. The Donor acknowledges that there is no official relationship between the Donor and the State.
- E. The Donor acknowledges that it will receive no benefit as a result of the donation of the Property.
- F. The Donor is not the subject of State regulation or oversight, or interested in or likely to become

interested in any contract, purchase, payment, or claim with or against the State.

- G. The State determines that acceptance of the donation will provide a significant public benefit and such acceptance does not influence or appear to influence the State in the performance of its duties.
- H. The Donor acknowledges that TxDOT's acceptance of the donation does not bind State to a course of action or promise of performance.
- I. The State neither approves nor is responsible for any representations made by the Donor for tax purposes.
- J. The Donor acknowledges that the State will act in reliance of and in consideration of the promises made by the Donor in this agreement.
- K. The Donor acknowledges that this agreement is public information and will be furnished to a requestor pursuant to Chapter 552 of the Texas Government Code.

V. Hold Harmless:

The Donor shall save and hold harmless the State and its officers and employees from any and all claims and liability due to any intentional or negligent actions that are caused by or result from error, omission, or negligent act of the Donor or of any person employed by the Donor. The Donor shall also save harmless the State from any and all expense, including, but not limited to, attorney fees that may be incurred by the State in litigation or otherwise resisting the claim or liabilities that may be imposed on the State as a result of such activities by the Donor, its agents, or employees.

VI. Warranty of Use:

Donor represents and warrants to the State that Donor has no knowledge of any current or former use, generation, storage or disposal of any hazardous material on or under the Property currently or previously in violation of any federal, state or local governmental law or rule. Additionally, Donor represents and warrants to the State that Donor has no knowledge of the Property being used for a gas station, auto shop, or dry cleaning service, and has no knowledge of the presence of asbestos material on the Property. Donor has not received any notice of any action or proceeding relating to any hazardous materials or any release thereof on, in, under or about the Property.

VII. Relocation Assistance: (If applicable)

Donor acknowledges receipt of the brochure entitled "*Relocation Assistance*" and understands that relocation assistance benefits, if any, are handled entirely separate from and in addition to this transaction. Relocation benefits, if any, will be examined on a case by case basis, and will be specifically set forth in a separate agreement.

VIII. Costs:

- A. The State, without cost to the Donor, shall pay the cost of recording all instruments conveying title to the State, and the State may, but is not obligated to, purchase an owner's title policy at the State's expense.
- B. Donor will be reimbursed for any fair and reasonable incidental expenses necessarily incurred in transferring title to the Property for use by State. Expenses eligible for reimbursement may include (1) recording fees, transfer taxes and similar expenses incidental to conveying the Property to State; and (2) penalty costs for prepayment of any preexisting recorded mortgage entered into in good faith encumbering the Property. Voluntary unnecessary expenses or expenses incurred in clearing questionable title will not be eligible for reimbursement. Eligible incidental expenses will be reimbursed upon submission of a claim supported by receipted bills or other evidence of actual expenses incurred. Donor may file a written request for review if Donor believes that the State failed to properly determine the eligibility for or the amount of incidental expenses to be reimbursed. There is no standard form on which to request a review of a claim; however, the request for review must be filed with the State within six months after you are notified of the State's determination on any claim for reimbursement.

IX. Termination/Withdrawal:

If Donor withdraws from this agreement, in writing, before it is executed by the State, such withdrawal shall extinguish all rights, duties, obligations and liabilities of the State and the Donor under this agreement.

X. Sole Agreement:

This Agreement and the Donation Deed constitute the only promises, consideration and conditions of this conveyance, and no other promises, consideration or conditions have been signified or implied, except any benefits which Donor may or may not be entitled under the State's Relocation Assistance Program.

AGENDA CAPTION

Public Hearing, Discussion, and Action on Ordinance 2026-O-02C regarding a Conditional Use Permit for approximately 0.16 acres of land, located at the northeast corner of Trinity Street and Pecan Valley Drive Lot 12, Block 294, out of the City of Marble Falls Original Township, Burnet County, Texas, to allow for the proposed use of duplexes within the Existing Neighborhood Zone 2 (ENZ.2) Zoning District.

BACKGROUND INFORMATION

This item is for consideration of a Conditional Use Permit to allow for the duplex land use within the Existing Neighborhood Zone 2 (ENZ.2) Zoning District on Lot 12, Block 294, of the Marble Falls Original Township.

The Subject Area is a 0.16-acre tract of land on Trinity Street, currently zoned as Existing Neighborhood Zone 2 District (ENZ.2). The ENZ.2 district allows for the duplex land use as a conditional use. The Development Code, Appendix B, states that the duplex land use be an additional requirement for approval of a Conditional Use Permit, duplex development in the ENZ.2 district must follow the standards for duplex development in the ENZ.3 district. The development standards for the duplex land use within the ENZ.3 District are listed in the table below. The difference between the two zoning districts for the development standards is the allotted maximum lot coverage.

Table 4.2.7.A
Existing Neighborhood Zones General Lot and Building Standards

ENZ Sub-district	Development Type	Min. Lot Width	Lot Area and Coverage			Min. Setbacks				Max. Building/Structure Height	Min. Dwelling Unit Size
			Minimum Lot Area	Max. Lot Coverage	Max. Dwelling Units per Acre	Front	Interior Side	Street Side	Rear		
ENZ.2	Duplex ⁵	50'	6,000 sf	50%	N/A	25'	5' ⁷	15'	10'	35'	900 sf
ENZ.3	Duplex	50'	6,000 sf	75%	N/A	25'	5' ^{2,7}	15'	10'	35'	900 sf

The duplex land use requires approval of a Conditional Use Permit due to the unique characteristics which require special public review and consideration of the following criteria:

- **Compliance with Zoning District Regulations.** The conditional use shall comply with the purpose and intent and all applicable regulations of the zoning district in which it is located.
- **Compliance with Applicable Criteria of the Conditional Use.** The conditional use shall comply with the applicable criteria established in [Section 3.2.1](#), Restricted and Conditional Uses.
- **Impact on Public.** The conditional use shall not endanger, be detrimental, or otherwise adversely affect the health, safety, and welfare of the public.
- **Operation of Existing or Permitted Uses.** The conditional use shall not impair the operation of existing or permitted uses on the subject property or on abutting properties or be injurious to property or improvements in the immediate area.
- **Compatibility with Nearby Uses.** The conditional use shall be compatible with nearby uses in the immediate area with respect to building height, bulk and scale, setbacks, open spaces, landscaping, site development, and access and circulation features.
- **Provision of Public Infrastructure.** The conditional use shall ensure adequate provision of streets, water, wastewater, and other public infrastructure and utilities.
- **Consideration of Site Development.** The site development of a conditional use shall effectively mitigate impacts of the conditional use on the surrounding area and abutting properties. This includes consideration of, but not limited to, drainage, landscaping, buffering and screening, traffic control, pedestrian and vehicle access and circulation, parking, loading areas, lighting, and any other impacts the use may have on the surrounding area.

The Subject Area is currently an undeveloped corner lot north of Trinity Street and east Pecan Valley Drive. The applicant is proposing to construct a duplex. The proposed units are to be approximately 1,733 square feet, which meets the minimum dwelling unit size of 900 square feet for the ENZ.2 district. Each unit will be three bedrooms.

Neighboring properties to the east are zoned ENZ.2, while those to the west and south are zoned ENZ.3. The east side of Trinity Street consists of single-family residences, as do the properties to the west and north of the Subject Property.

The required number of parking spaces for the duplex land use is calculated at three spaces per dwelling unit. The total required parking spaces for this development is six parking spaces. The applicant is proposing the required six spaces with one space within a carport and the remaining two spaces on additional driveway space within the lot. The applicant requested a right-of-way abandonment of the right-of-way adjacent to Trinity Street to accomplish the parking requirements. Due to the location of the water main on Trinity Street and the close proximity to the lot line, the city will be retaining that portion of right-of-way, making an abandonment unfeasible.

Along with the Conditional Use Permit application, the applicant requested a variance for

the front and interior side yard setbacks, and the required number of parking spaces. The variance request was heard and denied by the Zoning Board of Adjustments in September 2025.

Due to the variance denial, the applicant has requested alternative setback calculations to be considered. This is available per Section 4.2.7.D Alternative Development Standards of Appendix B, Development Code, with the specific criteria outlined in Table 4.2.7.B, Existing Neighborhood Zones Alternate Lot and Building Standard inserted below.

Table 4.2.7.B Existing Neighborhood Zones Alternate Lot and Building Standards	
Front Setback Averaging	The front setback may be reduced to the lesser of: The average front building setback of homes along the same side of the street within the same sub-district; or The average front building setback of homes within 500 feet, on either side, of the parcel proposed for development.
Street Side Setback Averaging	The street side setback on any given lot may be reduced to no less than the average street side setback of lots within the same sub-district.

For these alternative setbacks, City Staff conducted a study using aerial imagery for properties within 500 feet of the development to determine the average of the front and street side setbacks. The following are the alternative setbacks compared to the Existing Neighborhood Zone 3 (ENZ.3) setbacks:

	ENZ.3 – Setbacks	Alternative Setbacks
Front	25 Foot	21 Foot
Street Side	15 Foot	11 Foot

The duplex use at the proposed site does not appear to pose any unfavorable impacts on nearby uses and is compatible with existing and permitted uses in the surrounding areas. Furthermore, the proposed use will not be detrimental to the public health, safety, or welfare or materially injurious to properties or improvements in the vicinity.

Comprehensive Plan

The Future Land Use Plan classifies the Subject Area as Neighborhood Residential. The Neighborhood Residential future land use classification includes lands that will be developed primarily with single-family detached residential subdivisions and their associated amenities. These areas are intended to be a mix of both suburban and auto-oriented character development. The proposed use is in conformance with the Comprehensive Plan.

Review Criteria	Does it Meet the Criteria?
Compliance with Zoning District Regulations.	Yes - with the approval of Conditional Use Permit
Compliance with Applicable Criteria of the Conditional Use	Yes - duplex development in the ENZ.2 district must follow the standards for duplex development in the ENZ.3 district.
Impact on Public.	Yes - Does not have an adverse impact to the public
Operation of Existing or Permitted Uses.	Driveways have been designed to have access off of Trinity Street only. Residential driveways are not allowed on this portion of Pecan Valley based on its classification of Collector street. The applicant will need to provide information on how the adjacent lot to the north will access their property and carport since they have been utilizing this lot for access.
Compatibility with Nearby Uses.	Yes - mostly single family residential, but there are duplexes and apartments in the area
Provision of Public Infrastructure.	Yes - a 20 ft. public utility easement will be retained along Trinity Street
Consideration of Site Development.	Yes - the site plan has been reviewed by City Staff and comments have been addressed

The submitted site plan and duplex land use does not appear to pose any unfavorable impacts on the nearby uses, is compatible with existing and permitted uses in the surrounding area and represents a redevelopment project.

The Planning & Zoning Commission recommended approval of the Conditional Use Permit based upon staff's recommendation and the conditions notated within the Staff Recommendation. The Commission passed the motion by a 6-1 vote.

A total of 12 adjacent property owners within 200 feet of the Subject Area were mailed notification letters, which included the public hearing dates and a pre-paid comment card

for response supporting/opposing the proposed conditional use permit. At the time of packet distribution, no comment cards were received.

STAFF RECOMMENDATION

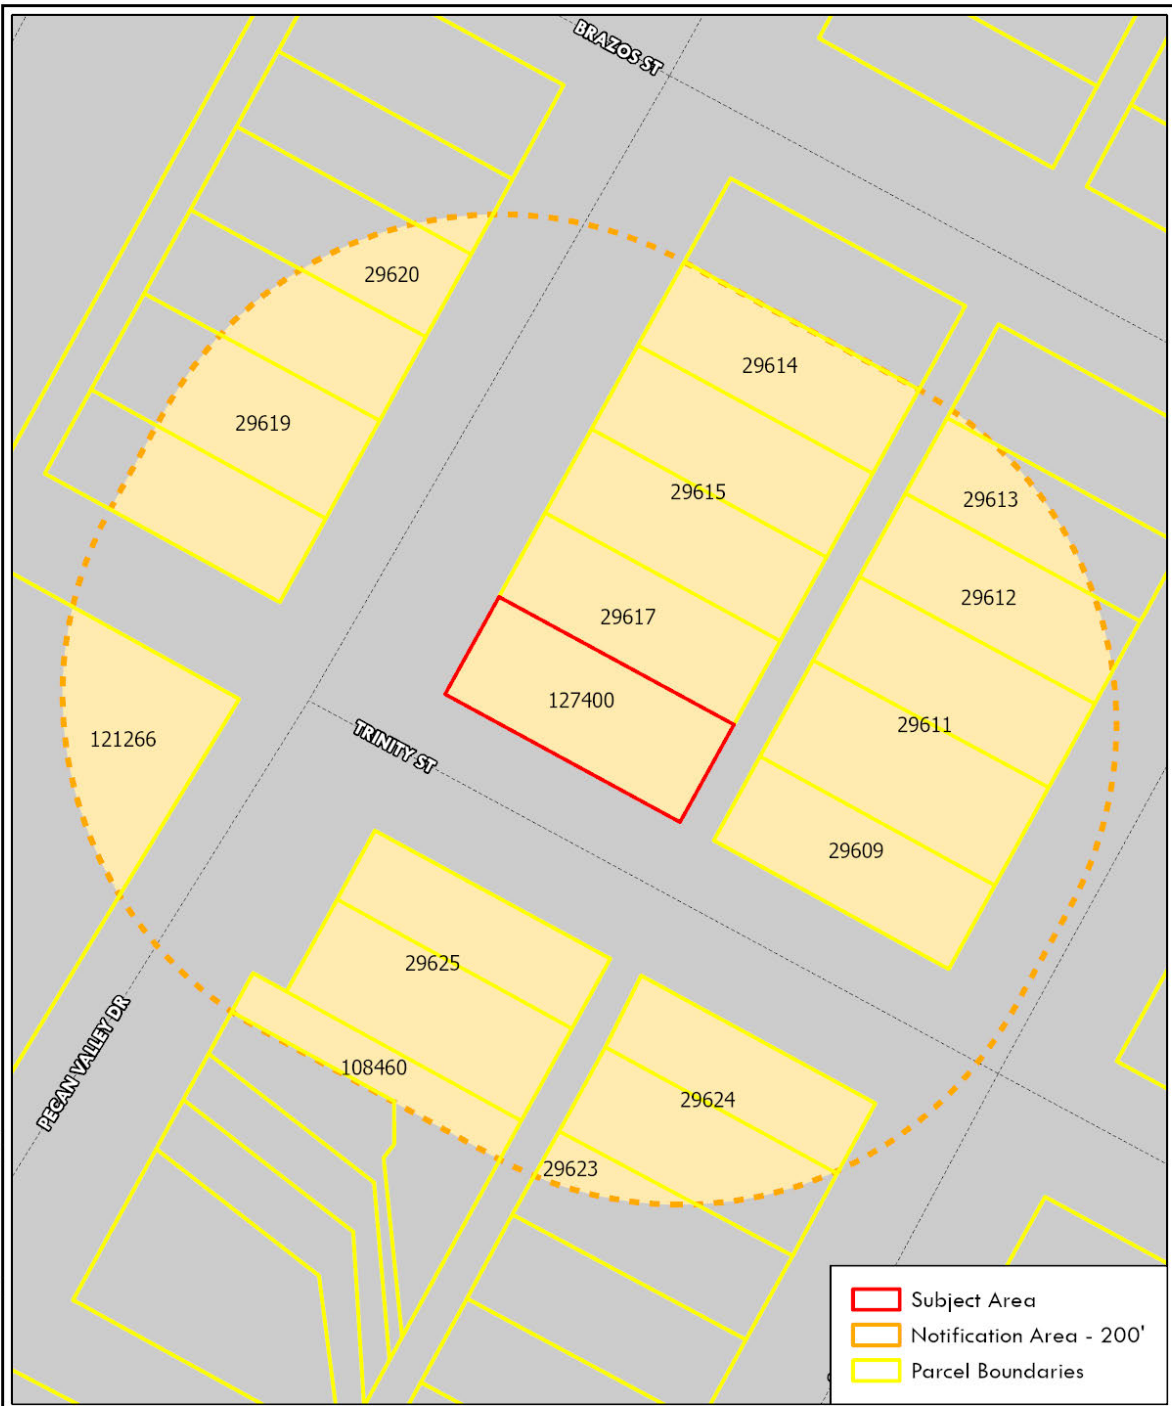

City Staff recommends approval of the requested conditional use permit and site plan based on the conformance with the Comprehensive Plan, the compatibility with surrounding existing land uses, and the site meeting or exceeding the minimum standards for the proposed use within the property, with the following conditions:

1. The CUP project approved herein is limited to one (1) building with one story, consisting of a maximum of two (2) dwelling units, as depicted in the Site Plan.
2. Fencing along Trinity Street cannot exceed 6 feet in height
3. A plan for access to the adjacent property needs to be submitted
4. Minor amendments to the site plan are allowed to be approved by City Staff to accommodate the conditions set forth in this ordinance.
5. Reduce the public utility easement adjacent to Trinity Street to 10-foot
6. Fencing adjacent to Trinity Street must be masonry
7. Fencing along Pecan Valley must be 4-foot in height

Conditional Use Permit Application – Lake Up LLC/Joseph Luke Adkins

Re: Pecan Valley Dr. Lot 12

Statement

Our goal is to build a duplex on our corner lot at Pecan Valley Dr. & Trinity St, and because of the zoning district our lot sits within we need a conditional use permit to build.

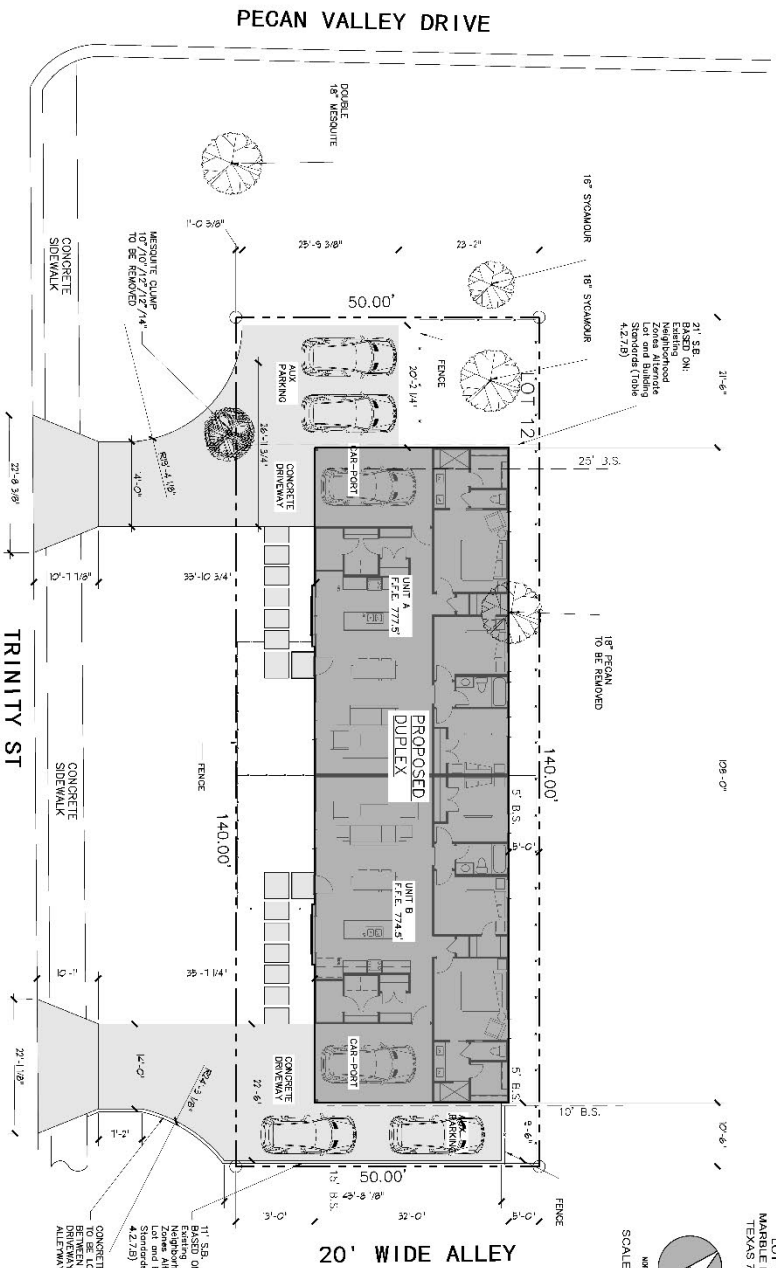

Also, we are asking for a condition within the conditional use permit for a 5ft front setback facing Trinity St. The goal is to relieve burden due to City not wanting more driveways on Pecan Valley Dr. This mandate makes our property unbuildable. Currently it's a 25ft front setback facing Trinity St due to City not allowing driveways facing Pecan Valley Dr., but it takes up half of our 50ft lot, rendering it unbuildable. With this condition, the structure would be 37' 5" from Trinity St. allowing good visual clearance for intersection traffic.

We oriented the footprint this way (driveways and front facing Trinity St) for a number of reasons: 1) to comply with the City's guidelines, per the City's Code of Ordinance driveways facing Pecan Valley Dr. are prohibited; goal is to comply and not push to build a new driveway from Pecan Valley Dr. to avoid unsafe driveway/traffic conditions on Pecan Valley Dr. and being close to intersecting streets, 2) to prevent negatively impacting 4 large root systems or removing up to 4 large trees, 3) having the driveways on Trinity St. moves the privacy fencing for the house away from the road, 4) in order to create a plan for affordable rental housing and maximize living space (goal is 1600 sf per rental unit), while at the same time utilizing driveway approaches from Trinity St. the plan needs a wider footprint, 5) to get creative with restrictions and work towards solution to not only deliver affordable housing that meets affordability measures but provide a solution that looks good offering outdoor living opportunities taking away the burden of maintaining big backyards.

AGENDA CAPTION

Public Hearing, Discussion, and Action on Ordinance 2026-O-02D regarding a Conditional Use Permit for approximately 3.088 acres of land, located at the southeast corner of Broadway Street and Avenue N comprised of Lots 1, 2, 11, and 12, Block 150, Seventh Street south of Lots 1 and 2, Block 150, Lots 7-12, Block 165, Sixth Street south of Lot 12, Block 165, Lot 7-A, and Lots 7-12, Block 172, out of the City of Marble Falls Original Township, Burnet County, Texas, to allow for the proposed use of Housing and Services for the Aging within the Neighborhood Commercial (NC) zoning district.

BACKGROUND INFORMATION

This item is for consideration of a Conditional Use Permit to allow for Housing/Services for the Aging Land Use within the Neighborhood Commercial District (NC).

The subject area is a 3.088-acre tract of land on Avenue N within the Neighborhood Commercial Zoning District. The Housing/Services for the Aging use requires approval of a Conditional Use Permit and site plan due to the unique characteristics which require special public review and consideration of the following criteria:

- **Compliance with Zoning District Regulations.** The conditional use shall comply with the purpose and intent and all applicable regulations of the zoning district in which it is located.
- **Compliance with Applicable Criteria of the Conditional Use.** The conditional use shall comply with the applicable criteria established in [Section 3.2.1](#), Restricted and Conditional Uses.
- **Impact on Public.** The conditional use shall not endanger, be detrimental, or otherwise adversely affect the health, safety, and welfare of the public.
- **Operation of Existing or Permitted Uses.** The conditional use shall not impair the operation of existing or permitted uses on the subject property or on abutting properties or be injurious to property or improvements in the immediate area.
- **Compatibility with Nearby Uses.** The conditional use shall be compatible with nearby uses in the immediate area with respect to building height, bulk and scale, setbacks, open spaces, landscaping, site development, and access and circulation features.

- **Provision of Public Infrastructure.** The conditional use shall ensure adequate provision of streets, water, wastewater, and other public infrastructure and utilities.
- **Consideration of Site Development.** The site development of a conditional use shall effectively mitigate impacts of the conditional use on the surrounding area and abutting properties. This includes consideration of, but not limited to, drainage, landscaping, buffering and screening, traffic control, pedestrian and vehicle access and circulation, parking, loading areas, lighting, and any other impacts the use may have on the surrounding area.

The proposed use will be an independent living affordable housing development serving elderly households (ages 55+). Rent and income restrictions will be governed by a Land Use Restriction Agreement under the Housing Tax Credit Program for 45 years. The proposed building will be a three-story building with 49 units consisting of one- and two-bedroom units. Community amenities to be provided will include a dog park, a fitness center, an activity room and a community room with a kitchen. The proposed site plan provides a total of 74 parking spaces for the building. No medical components will be provided. Limited services may be provided to the residents such as educational classes, fitness classes, and other services.

The proposed site plan and building elevations have been provided and meet the minimum zoning and building articulations. The required parking spaces for this use is 16 spaces and 74 spaces are being provided. Landscaping is being provided as shown on the site plan and the developer is required to comply with the following standards:

- Landscape Buffers:
 - Type A landscape buffer adjacent to Avenue N.
 - Type B landscape buffer adjacent to the rear property line against Childer's Park.
- Parking lot landscaping
- Perimeter Parking Lot Screening

There will be improvements to the existing sidewalks on Avenue N and construction of new sidewalk along Fifth Street. The existing concrete pads off on Avenue N will be removed as part of the proposed improvements. With the proposed development being more than an acre water quality and detention is required to be addressed. The proposed site plan takes that requirement into consideration, exact placement and construction will be reviewed at the time of site development permit review.

Neighboring properties to the North, South, and West are zoned Neighborhood Commercial (NC) and Downtown Residential (DR) to the East.

The Future Land Use Plan classifies the Subject Area as Neighborhood Commercial. The Neighborhood Commercial future land use classification includes lands that will be developed primarily with single-family detached residential subdivisions and their associated amenities. These areas are intended to be a mix of both suburban and auto-oriented character of development. The housing/services for the aging falls within these parameters.

Review Criteria	Does it Meet the Criteria?
Compliance with Zoning District Regulations.	Yes - with the approval of Conditional Use Permit
Compliance with Applicable Criteria of the Conditional Use	Yes - facilities designed to accommodate more than 10 residents shall take access from an arterial or collector street. It is not located at the intersection of two arterial streets.

Operation of Existing or Permitted Uses.	Yes - Driveways have been designed to align with the Public Safety Building across Avenue N.
Compatibility with Nearby Uses.	Yes - there is a mix of uses within this area which the zoning district allows for.
Provision of Public Infrastructure.	Yes - improvements will be done to the existing sidewalk along Avenue N, sidewalk added to Fifth Street and concrete pads will be removed on Avenue N, a utility easement will be retained along Avenue N.
Consideration of Site Development.	Yes - the site plan has been reviewed by City Staff and comments have been addressed regarding parking, landscaping, drainage, detention, access and building articulations.

The proposed site plan and use does not appear to pose any unfavorable impacts on the nearby uses and is compatible with existing and permitted uses in the surrounding area.

The Planning & Zoning Commission recommended approval of the Conditional Use Permit based upon staff's recommendation and the conditions notated within the Staff Recommendation. The Commission passed the motion by a 7-0 vote.

A total of 12 adjacent property owners within 200 feet of the Subject Area were mailed notification letters, which included the public hearing dates and a pre-paid comment card for response supporting/opposing the proposed conditional use permit. At the time of packet distribution, no comment cards were received.

- The CUP shall expire within two (2) years from the date of this CUP, unless, prior to expiration the site is occupied as housing/services for the aging land use. Applicant may seek an extension of this CUP for an additional two (2) year period if such request for extension is received by the City on or before the expiration date.

CUP Statement – Summary for Online Submission

The applicant requests a Conditional Use Permit to allow a **49-unit senior independent living community** on a site zoned **Neighborhood Commercial (NC)**. The use qualifies under **Housing & Services for the Aging – Independent Living**, defined as housing for elderly residents who live independently with access to limited supportive services. No medical or nursing services are proposed.

Nature of Use & Operations:

The project will provide age-restricted apartments with on-site management during business hours, coordinated non-medical services (wellness activities, transportation assistance, basic resident programming), and a quiet, low-impact operating profile. The building is a three-story, elevator-served structure with parking at approximately **1.5 spaces per unit**, subject to final layout.

Site Characteristics:

The plan includes a **10' landscape buffer** along both street frontages, sidewalks along Avenue N and 5th Street, compliant fire access, and detention/water-quality facilities in the lower eastern portion of the property due to topography. The steep back area will remain passive green space.

Findings for Approval:

- **Consistency with the Comprehensive Plan:** The City has identified a growing need for senior housing options that allow aging residents to remain in Marble Falls. This project directly supports that goal.
- **Compatibility:** Independent living generates lower traffic and noise than standard multifamily and is compatible with nearby civic and recreational uses.
- **Adequate Public Facilities:** Water, wastewater, and fire service can be supported through existing utilities, with improvements.
- **Safe & Orderly Development:** The project meets required buffers, sidewalk connectivity, access spacing, drainage standards, and will incorporate detention/water-quality measures to avoid adverse impacts.
- **Community Benefit:** The project repurposes an underutilized NC-zoned infill site into high-quality senior housing that advances aging-in-place goals and enhances the corridor with new landscaping and pedestrian improvements.

AGENDA CAPTION

Discussion and Action on Ordinance 2026-O-02B amending the Code of Ordinances of the City of Marble Falls, Texas Chapter 26 (Utilities), Article V (Rates and Charges), Division 2 (Water and Sewer), Section 26-136 (Water Services), Subsection (4), establishing a rate for water service provided by the City outside the City Limit.

BACKGROUND INFORMATION

In September 2023, City Council amended the Master Fee Schedule through Ordinance No. 2023-O-09C to adopt water and wastewater rate adjustments based on a rate study conducted by the City's rate consultant. The study evaluated projected capital improvement needs and long-term revenue requirements for the Water and Wastewater Funds.

While the Master Fee Schedule was updated at that time, the Utility section of the Code of Ordinances was not amended. The attached ordinance amends the Code of Ordinances to formally establish the rate for water service provided outside the City limits at 1.35 times the rate charged to customers within the City limits. This rate structure is already reflected in the Master Fee Schedule and is currently being applied.

The City of Marble Falls provides municipal services within the City and operates a municipal water and wastewater utility system. In accordance with Chapter 13 of the Texas Water Code, the City also provides retail water and wastewater service to customers located outside the City's corporate limits.

In setting rates for customers outside the City limits, the City Council considered the full cost of providing water service, including infrastructure costs, capital improvement and replacement needs, debt service, operations and maintenance expenses, administrative costs, system capacity impacts, and the absence of ad valorem tax contributions from customers outside the City. The City also has a fiduciary responsibility to manage the General Fund and the Water and Wastewater Fund in a prudent and fiscally sound manner.

Based on these considerations, the rate for water service provided outside the City limits is intended to reasonably reflect the costs and impacts associated with providing service and is considered just, reasonable, and non-discriminatory.

Approval of this ordinance does not result in any additional increase to water rates. This action is a housekeeping measure intended to ensure consistency between the Code of Ordinances and the Master Fee Schedule.
